Re: Facility No. WAD980664718

Dear Mr. Drexler:

The enclosed COMPLAINT AND COMPLIANCE ORDER requires you to cease any hazardous waste management activity which is regulated under the Resource Conservation and Recovery Act (RCRA) at the facility located at 1930 C Street, Tacoma, Washington. This facility has been operating as a hazardous waste management facility with neither a permit nor interim status. This operation is a violation of RCRA.

The enclosed COMPLAINT AND COMPLIANCE ORDER reflects the seriousness of the Environmental Protection Agency's (EPA's) concern. It includes a proposed penalty for \$22,000 for operating without a permit.

I encourage you to read the COMPLAINT AND COMPLIANCE ORDER carefully and note the procedures for appeal and other options for resolution of this matter.

Sincerely,

Kenneth D. Feigner, Chief
Waste Management Branch

Enclosure
